

BCR200-BT

Biometric Card Reader (Bluetooth)

BCR200-BT is a 2-in-1 compact mobile security verification reader. With both contact smart card and biometric reader integrated, it allows verification in a single connection. Its compact size and mobile communication capability (Bluetooth) makes it ideal for officer on the move. The built in Optical biometric scanner offers clear and precise fingerprint image capturing.

Key Features

- Contact Smart Card Reader
- Optical Fingerprint Scanner
- Mobile and Desktop Environment
- Built-in Bluetooth
- Secure Access Module (SAM) Security
- USB High Speed Data Transfer
- Ultra Slim Size and Ergonomic Design
- Dual Functionality : Identification and Verification to be performed simultaneously

SPECIFICATIONS

Complies to

- ISO7816, Part 1/2/3/4, T=0 and T=1

Electrical Specification

- Host Interface: USB2.0 Full-Speed
- Contact Card Interface: 1 X ID-1 card slot
1 X ID-0 SAM slot
- Supported Card Voltages: 3V and 5V
- LCD display : Character STN type with backlight
- Power: USB or battery powered
- Bluetooth: Version 1.2, class 2 device up to 10 feet coverage
- Battery: Rechargeable 850mAh Li-Polymer battery, charging via USB port

Fingerprint Scanner

- Sensor Type: Solid-state capacitive sensor or optical scanner
- Supported Templates: Sagem, Precise, NEC
- Supported Standards: ISO19794-2, ANSI378, WSQ

Mechanical

- Dimensions (mm): 98 (L) x 45 (W) x 30 (H)
- Weight (g): 80 approx

Environment

- Operating temperature: -10°C - 45°C

Software

- PC USB driver: USB2.0 driver for WinVista (32-bit), WinXP (32-bit), and Win2000

Accessories

- USB cable (1.0m)
- USB power adapter
